# Pedro Ferreira

*Full Stack Developer | React · Django · TypeScript · Python*

pedro_ferreira155@hotmail.com | +55 (17) 98225-5045 | linkedin.com/in/pedro-ferreira021

## OBJECTIVE

To work as a Full Stack Developer, combining frontend skills (React, Next.js, TypeScript) and backend expertise (Python, Django, REST APIs) to deliver complete, scalable, and high-quality web solutions. I seek to join agile teams where I can contribute across all application layers, from UI to database.

## PROFESSIONAL SUMMARY

Full Stack Developer in training, with hands-on experience in frontend (Next.js, React, TypeScript, Tailwind CSS) and backend using Python (Django and Django REST Framework). I work with REST API architecture, Docker containerization, and PostgreSQL databases. Currently interning at Grupo CPCON Brasil, actively contributing to real-world projects from feature development to system maintenance. Pursuing a degree in Systems Analysis and Development at FATEC Ourinhos.

## TECHNICAL SKILLS

**Frontend:**

- React · Next.js · TypeScript · JavaScript · Tailwind CSS · HTML5 · CSS3
- Responsive Design · Web Accessibility · Component Architecture · Figma · Prototyping

**Backend:**

- Python · Django · Django REST Framework · Flask · REST APIs · JSON · Postman
- PostgreSQL · MySQL · SQLite · Relational Database Modeling · CRUD

**Infrastructure & Tools:**

- Docker · Git · GitHub · GitFlow · Linux · CLI
- Scrum · Kanban · Agile Methodologies · Code Versioning · OOP · MVC

**Testing & Quality:**

- Manual Testing · Functional Testing · Regression Testing · Code Refactoring · Requirements Analysis

## PROFESSIONAL EXPERIENCE

### Full Stack Development Intern | Grupo CPCON Brasil | *Sep/2025 – Apr/2026*

- Full Stack web application development with Next.js, React, TypeScript, and Tailwind CSS on the frontend.
- Backend with Django and Django REST Framework; REST API implementation and consumption.
- Full frontend-backend integration with PostgreSQL database.
- Use of Docker in a pre-configured environment for development standardization.
- Participation in bug fixes, evolutionary improvements, and maintenance of existing systems.
- Team collaboration on code versioning (Git/GitHub) and development best practices.

### Programmer | Interasoft | *Jan/2025 – Jul/2025*

- Development of an educational web platform using Django and REST APIs.
- Feature implementation, performance testing, and accessibility improvements.
- Production of Java and MySQL didactic courses with real examples and interactive exercises.
- Intern mentoring, code review, and technical quality assurance of educational materials.

## PROJECTS

### Management System for Psychological Clinics | *2025 – In development*

- Full Stack web application using Python, Django, React, Next.js.

- API development, database modeling, and responsive accessible interface construction.
- Active participation in requirements gathering and feature implementation.

**Educational Web Platform (Interasoft)** | *2025 – In development*

- Online educational platform for courses using Django, REST APIs, and relational databases.
- Features for classes, activities, and content interaction, focused on performance and usability.

**Computer Vision System for Visual Impairment Assistance** | *2025 – In development*

- Assistive technology using Python and OpenCV for real-time obstacle recognition.
- Audio feedback interface to guide visually impaired users and increase their autonomy.

**IPv4 Calculator** | *2026*

- Web tool for IPv4 subnet calculation, built with React, TypeScript, Vite, and Tailwind CSS.
- Unit tests with Vitest and deployed via GitHub Pages.
- Live demo: pedroferreira3.github.io/ipcalculator | Source code: github.com/PedroFerreira3/ipcalculator

## EDUCATION

**Technologist in Systems Analysis and Development**
*FATEC Ourinhos | Feb/2024 – Dec/2026 (In progress)*

## EXTRACURRICULAR COURSES

- Hashtag Treinamentos (2024): Python – 176h | Excel – 113h | SQL – 90h | Algorithms & Programming Logic
- Alura (2025): Flask – 21h | HTML & CSS | Web Accessibility | Git and GitHub – 8h

## LANGUAGES

- English – Intermediate/Advanced (TOEIC Certificate – 690 points)
- Portuguese – Native
